The Republican State Convention in Richmond yesterday nominated Dr. Brown, the anti-Smith nominee for Governor, and the endorsement and nomination of two parties. Col. Anderson charged in his keynote speech that Virginia's schools are in politics, that there are useless officers, denounces the State Corporation Commission has petitioned the Federal Commission to repeal the act so that testimony may be offered, but the Corporation Commission's day in court has passed and it is doubtful if a petition at this late date will be of benefit to Virginia farmers. The barn door is gently closed after the horse is gone—Southern Planter.

Supt. Burke

In your paper of June 20th under editorial comment appeared the following statement: "Campbell County School Board has awarded school routes to lowest responsible bidder." This is a statement of fact, but it is a statement of fact that a Democrat will continue to administer the affairs of the State. Although the people have no platform of principles, the people will trust it and endorse it at the polls on its record of fifty years of faithful service.
